REGISTRATION BY RECIPROCITY

During the period covered by this report, seventeen applications for reciprocal registration were accepted and four were rejected. These four applicants did not submit satisfactory evidence that they met the North Carolina requirements for registration. Those registered were as follows.

Of the seventeen registered by reciprocity, thirteen are engaged in pharmacy within the State. The remaining four reside out of the State.

PHARMACISTS REGISTERED IN OTHER STATES BY RECIPROCITY

Seven pharmacists from North Carolina have been registered by reciprocity in other states. No North Carolina applications have been rejected by other states. Of the seven so registered, four continue to practice in North Carolina.

PHARMACISTS RE-REGISTERED

Sixteen pharmacists have been re-registered during the period. They are as follows:

Brooks, Joseph Whitfield
Crowe, David Francis
Cain, Herman Earl
Haggard, Charles Ray
Bland, James Addison
Williams, Wayman W.
Gatling, T. R.
Padgett, Everett Lee
Neal, Frank Finley

PRESCRIPTIONS

Number of prescriptions (new and refill) filled in State during the calendar year, 1949

12,900,000.

(This figure is determined on the basis of reports from 544 stores, which figures were projected to the 876 stores registered.)

COMMENTS

A comparison of the summaries just enumerated with the statistics from last year shows that the progress made in overcoming the apparent shortage of pharmacists has not been significant. There has been an increase in the total number of pharmacists in good standing on the Board Roster over last year of forty-three. The increase of those in pharmaceutical pursuits in the State was thirteen. However, the increase in the number engaged in retail pharmacy was twenty-four. This difference being accounted for by the fact that there was a decrease in the number engaged in such other pursuits as field representatives for manufacturers and wholesalers, hospital pharmacies, etc.

Information regarding prospective candidates for license at the University and from other sources is such that no marked improvement of available pharmacists within the next few years can be predicted.

There has been an improvement in the average age of the pharmacists, in that, 44.6% of the total number on the active list are over fifty years of age, as compared with 48.4% last year. Further, of those actively engaged in pharmaceutical pursuits, 43.5% are over fifty years of age. In spite of these improvements, pharmacy may still be considered an "old man."

What is believed to be of considerable interest to the pharmacists of the State is the number and classification of pharmacies or drug stores registered. As of April 18th, there were 876 drug stores or pharmacies registered. Of this number, 860 are classified as retail drug stores. This is an increase of 14 over the preceding year. What is of special interest is that the number of so called "one man" drug stores has decreased by one. Compared with this, the number of stores serviced by two pharmacists has increased by twenty-one, and the number serviced by three has increased by four stores. The number of stores serviced by permitted physicians has declined by seven during the past year. Although the progress represented by these figures is small, it is nevertheless progress. It is felt that the fact that there has been an increase in the number of stores being serviced by

two or more pharmacists, as well as a very minor decrease in the number serviced by one pharmacist, is an indication of the attitude of the pharmacists and owners of what a desirable situation is with regard to licensed personnel. It is expected that more and more of the stores now being serviced by only one pharmacist will employ additional pharmacists as they become available.

PRESCRIPTIONS

Based upon the reports made by 544 stores on their applications for the annual renewal of their drug store permits, these figures being projected to the 876 stores registered, it was found that there had been no change in the number of prescriptions filled in the State during the past year, this number being 12,900,000. In this connection, the Board would like to extend its thanks to those who cooperated in supplying the information which made this tabulation possible. To those who did not furnish the information, it is earnestly requested that they do so next year. You may be sure that this information will be held in strict confidence.

CONCLUSIONS

Comparing the statistics for North Carolina with those furnished by the National Association of Boards of Pharmacy for other states, North Carolina still occupies the unenviable position of having the smallest number of pharmacists based upon population of any state in the Union. As has been said before, no appreciable improvement has been noted in this respect in the past year. The School of Pharmacy is aware of our predicament and is doing everything possible to relieve it with the inadequate facilities available. It is understood that the University administration has committed itself for a marked improvement of its facilities to teach pharmacy in the next biennium. It behooves every pharmacist in the State to assist the University in any way possible in securing the necessary funds for this purpose.

BEAL MEMBERSHIP PRIZE

Miss Doris Gilliam of Sanford, N. C., made the highest average of all candidates taking the examination during the calendar

year of 1949, with an average of 92%. She is, therefore, recommended for the prize of one year's membership with the North Carolina Pharmaceutical Association.

MINIMUM STANDARDS FOR THE EVALUATION OF PRACTICAL EXPERIENCE

At the last annual meeting, the Board reported on the limited experience gained since the Minimum Standards for the Evaluation of Practical Experience was adopted January 1, 1949. Considerably more experience has been gained since that time with the administration of the Minimum Standards. Both the Board and the candidates for license have become familiar with the requirements and less difficulty has been experienced in fulfilling these requirements. It is felt, however, that these Standards have not been sufficiently publicized to the pharmacists supervising the practical experience. In order that they might better understand these requirements, we are again presenting them herewith.

MINIMUM STANDARDS FOR EVALUATING PRACTICAL EXPERIENCE

(As revised and approved by the National Association of Boards of Pharmacy on August 26, 1947, and recommended and adopted by the North Carolina Board of Pharmacy to become effective January 1, 1949.)

1. The term "year" as used to designate the quantitative standard for practical experience shall mean fifty-two average work weeks of apprenticeship training acquired under the supervision of a registered pharmacist.

2. The pharmacy owner or registered pharmacists supervising the practical experience of an applicant for registration must notify the Board of Pharmacy whenever an applicant for registration begins employment under their supervision and whenever an applicant leaves their employ.

3. Persons working under the supervision of registered pharmacists and expecting to qualify for the registered pharmacist examination must notify the Board of Pharmacy of the beginning and end of their employment under the supervision of a registered pharmacist within five days of the beginning or ending of such employment.

4. Boards of Pharmacy shall not allow credit for claims of practical experience required under the pharmacy laws unless such claims can be corroborated by records on file in the Board office showing the beginning and ending of the practical experience claimed as supplied by the applicant during his training period and by the pharmacist who supervised the practical experience during the training period.

5. Practical experience shall be credited only when it has been obtained in a pharmacy acceptable to the Board of Pharmacy for that purpose.

6. The term "supervision" as used in connection with the practical experience requirement shall mean that in the pharmacy where practical experience is being obtained a registered pharmacist supervising practical experience shall be in personal contact with and actually giving instruction to the person obtaining practical experience during the entire period of such experience.

7. A pharmacy acceptable to the Board of Pharmacy as a proper place to obtain practical experience shall conform to the best traditions of pharmacy in the State. It shall have available all necessary equipment for professional service, necessary reference works, in addition to the official standards, and current professional journals, and shall meet the following minimum standards:

(a) It must be a pharmacy operating under a permit from the Board of Pharmacy in states where annual permits are required. In states where there is no permit law, the pharmacy must be operated at all times under the supervision of a registered pharmacist and must have signified its willingness to train apprentices or to employ persons desiring to obtain practical experience in accordance with the state pharmacy laws.

(b) A pharmacy acceptable to the Board for practical experience must have a clear record with respect to the observance of Federal, State and municipal laws, and ordinances governing any phase of activity in which it is engaged.

(c) The pharmacy owner and the registered pharmacists supervising the practical experience of applicants for registration

tion must agree to abide by the Code of Ethics of the American Pharmaceutical Association.

8. The individual obtaining practical experience shall keep a notebook properly certified to by the pharmacist supervising the practical experience covering the details of his practical training and this notebook shall be submitted as a part of the application for the Board examination.

It is the purpose of the Board to more closely supervise this practical pharmacy training as the use of the Standards become better established, and to work closely with the supervising pharmacists on an individual basis.

INSPECTION AND LAW ENFORCEMENT WORK

Some progress has been made during the past year in the Law Enforcement Program. However, the limited personnel has continued to be a problem. For more than three quarters of the year the inspection work was carried on by Mr. May alone. For a period of several months, the Board secured the additional services of a part time inspector. However, as of April 10th, the part time inspector was replaced with a full time representative. It is hoped that with this additional personnel, our inspection program can be made more effective.

From the statistics quoted earlier, we found that there had been a slight increase in the number of pharmacists engaged in pharmaceutical pursuits and that the greatest increase in personnel was shown in the retail drug store. Further the fact that the number of stores serviced by two or more pharmacists has increased, while the number of one man drug stores has not increased, is evidence that some progress has been made. The Board remains to be concerned, however, about the fact that a considerable number of persons not qualified under the Law continue to render pharmaceutical service in the absence of legal supervision. During the past two years, the Board's representative has carried on a campaign to educate the pharmacists to their legal and professional responsibilities. For the period just ahead, the inspectors have been directed by the Board to place more emphasis on the correction of this problem.

The Board desires to compliment Mr. Thomas H. May for his continued interest in rendering service to the people of the State and to the profession of Pharmacy under a considerable handicap. The details of the inspection work are contained in the report of Mr. May which follows:

REPORT OF MR. THOMAS H. MAY

To the Members of the North Carolina Board of Pharmacy:

I have the honor to submit herewith, a summary of inspection work from May 1, 1949, to April 15, 1950, a bit short of a year due to the dates of the Convention. I have made 1106 inspections of establishments and 364 miscellaneous calls and investigations in 372 towns. They cover the following classifications:

Retail drug stores.....	980
Wholesale drug companies.....	6
Soda shops.....	61
Physician offices.....	33
Hospitals	21
Grocery stores.....	3
Drug manufacturing plants.....	2
Miscellaneous calls.....	364

Making a total of 1470 inspections.

Although I have covered the entire State during the past year, I have closely followed a program of concentrated effort in the vicinities found to be out of order and in greatest need of correction.

Miscellaneous and special investigations have accounted for a great deal more time during the year than usual. Upon numerous occasions it has been necessary to contact police departments, local courts, and to use private attorneys to clear up unsatisfactory conditions. In the main, these efforts have been directed largely toward persons who are not pharmacists, but who are entering the field of pharmacy and the operation of drug stores without giving proper thought to the provisions necessary to render proper pharmaceutical service.

It has been necessary to prosecute one case in the courts. The defendant was found guilty on three counts and was fined.

Generally, however, I am pleased to note that pharmacists and drug store proprietors are becoming more interested in our program of Law Enforcement and are affording greater cooperation in providing the proper supervision of their establishments than has been the case in the past. It appears that they now realize more than ever the vastness of the program and are entering into it with most gratifying improvements.

I have been pleased to note during the past year the significant increase in the number of stores that are serviced by two or more, registered pharmacists, however it is felt that there is more room for improvement along this line.

In a number of instances I have recommended that prescription departments be discontinued and

that the establishments be operated as soda shops. Where the recommendations have been followed, satisfactory results have been obtained. It has been found that in most cases, although the gross volume of business has been slightly less, the net profits have been satisfactory to the owners due to the relief from the heavy overhead expenses of operating the prescription department.

In spite of the improvements that have been noted, there remains one outstanding condition which is disturbing, and that is the unwarranted confidence placed in unlicensed personnel by the pharmacist in charge. It has been noted for sometime that some of the pharmacist's owners or managers have allowed themselves to become overly confident, either by choice or convenience to serve his own ends, in allowing unlicensed personnel to render prescription and pharmaceutical service without the immediate supervision of a pharmacist. Many have stated that they personally consider the unlicensed clerk in question as capable as a licensed pharmacist. It appears that these pharmacists have completely lost sight of the fact that the legal authority to decide the qualifications of an individual to practice pharmacy is vested in the Board of Pharmacy, and that no one person has the authority to decide on these qualifications. Certainly more attention needs to be directed in this area of the law Enforcement Program.

Based upon my four years of inspection work and observing closely the operation of drug stores, I am unable to satisfactorily answer the question why we should have any deliberate and continued pharmacy law violations. It is my firm conviction that the public health and safety demands that our pharmacy laws be revised and greatly strengthened with emphasis being placed upon impressive fines for violations. The public is in the habit of placing the utmost confidence in the personnel of prescription departments, because they believe they are protected by law in so far as the personnel is concerned. This statement is substantiated as a result of a number of investigations which were necessary in regard to violations in which individuals were interviewed. It is recommended that some means be found whereby this confidence shall not be betrayed.

Respectfully submitted,
(Signed) THOMAS H. MAY

Disciplinary Action

Following the policy established several years ago, the Board has permitted certain individuals who are alleged to have violated the Pharmacy Law to appear before the Board to show cause why they should not be prosecuted or their license withheld and/or revoked. During the year the Board has held ten hearings, as a result of charges preferred against pharmacists alleging the use of alcoholic beverages or narcotic or hypnotic drugs. Based upon facts established at

these hearings, the licenses of two pharmacists were revoked for indulgence in intoxicating beverages to an extent that would render them unfit to practice pharmacy. Two pharmacists were placed on probation when it was established that alleged narcotic addiction had been cured. The licenses of three pharmacists were renewed on probation as a result of previous intoxication. The licenses of three pharmacists are currently being withheld, due to the use of intoxicating beverages to an extent that renders them unfit to practice pharmacy.

It should again be observed that the Board views with grave concern the activities of its licentiates which result in the impairment of their mental facilities in such a fashion as to render them a menace to the public health. The Board will continue to exercise its legal authority in this direction for the protection of the public.

THE PHARMACEUTICAL SURVEY

At the February meeting, our new member, Mr. Robert N. Watson of Sanford, suggested that the Board undertake to determine the attitude of the pharmacists in the State regarding many phases of the profession. Under his direction and with the cooperation of the other members of the Board, a Survey Questionnaire was devised and forwarded to every pharmacist residing in the State. As of the date of this report, slightly more than five-hundred questionnaires have been returned. Those have been tabulated and a report will be given on the results of this Survey later in the program. It is requested that those who have not yet filled out this questionnaire do so and return to the office of the Board.

As has been intimated before, there exists a need for the revision and clarification of our Pharmacy Law. The Board expects to undertake the project of initiating these changes, and the Survey will prove a valuable guide in this connection. Work is already in progress to draw up a new Pharmacy Act. When this has been completed, the suggested Act will be turned over to the legislative committee of your Association for approval.

FINANCIAL REPORT

The following is a financial report of the Board of Pharmacy for the period from May 1, 1949, through April 30, 1950, as contained in the Audit Report of Mr. Raymond L. Price, C.P.A.

SIXTY-NINTH ANNUAL REPORT**REPORT ON AUDIT****OF****NORTH CAROLINA BOARD OF PHARMACY**

RALEIGH, N. C.

June 15, 1950

To the Officers and Members of the North Carolina Board of Pharmacy:

Gentlemen:

As requested we have made an audit of the financial records of Mr. H. C. McAllister, Secretary & Treasurer of the North Carolina Board of Pharmacy for the period from May 1, 1949, to April 30, 1950, and the attached statement of Cash Receipts and Disbursements presents a summary of operations for the fiscal year.

All Receipts entered on the Cash Book were traced to the bank. Disbursements for the year were made for apparently proper purposes and are supported by signed, paid checks, received bills, etc.

The Balance on Hand at April 30, 1950, consists of the following:

CASH ON HAND:

Bank of Chapel Hill.....	\$14,995.22
Cash in Safe: Petty Cash.....	2.93

\$14,998.15

INVESTMENTS:

U. S. Treasury Bonds (2 1/2 %).....	5,000.00
Home B. & L. Asso., Durham (3%).....	5,000.00
TOTAL BALANCE APRIL 30, 1950.....	\$24,998.15

The Cash in Bank was reconciled and verified. Petty Cash was counted. The five U. S. Treasury Bonds of \$1,000.00 each and Certificate number 1274 of the Home Building & Loan Association of Durham, N. C., for 50 shares of paid up insured stock, were inspected.

The fidelity bond for the Secretary & Treasurer in the amount of \$5,000.00 has been continued. A fire insurance policy on office equipment in the amount of \$1,000.00 was examined.

The records are in excellent condition and no difficulty was experienced in preparing this statement therefrom. We acknowledge the assistance rendered and courtesies extended us during the progress of the examination.

Respectfully submitted,
